#### **President's Message**

The lazy days of summer mean relaxing on the beach, boating on the river, taking vacations and cooking out with friends and family! Our Trip Leaders have been anything BUT lazy organizing trips to some wonderful destinations. We have four snowy offerings for next winter: Whistler/Blackcomb, Mt Bachelor, Breckenridge and Winter Park. We will also have a trip to China in May 2016. It's not too early to start making your winter travel plans now. I hope to see many of you at the Meet Up on June 17 at the Suntree Carrabba's.

Have a safe and enjoyable summer!

### Ski Fact:

Mount Bachelor is a stratovolcano with a shield volcano beneath it. It is located in central Oregon in the Cascade Mountain Range. The Mt. Bachelor ski resort has been up and running since the 1980's. It was born between 11,000 and 15,000 years ago. Mt. Bachelor began as a shield volcano. As eruptions became more explosive over time, it was capped with a stratovolcano. Mt. Bachelor stands at 9,068 feet tall. It last erupted between 8,000 and 10,000 years ago. Mt. Bachelor is completely covered with ash from the Mount Mazama eruption about 6,845 years ago.

**Telluride:** [Click here](#) to read about some of the highlights and to see over 100 great photos from this trip.

We are currently planning a fun local event that will let us show off our art skills or perhaps just laugh at our lack of art skills! The location will be a local art studio in Melbourne and this event will be for everyone (men and women)! Come paint, laugh, have a drink (BYOB), and let's have some fun in the off-season.

The cost will be \$30, which includes all art supplies. We will need a minimum of 10 "artists" to schedule a private paint party, and we can pick our painting of choice (turtle, sunset, or others to choose from).

Please contact [Linda O'Niell](#) if you are interested so plans can be confirmed for a July or August date.
