There are two types of travel insurance:

1. There is medical insurance to cover your medical expenses if you got sick or injured unexpectedly on your trip along with medical air evacuation.

This type of insurance is very inexpensive and provides "peace of mind"! Typical medical plan is as low as \$21pp no matter what the age!

2. Then there is trip cancellation and trip interruption insurance that comes in a package that includes trip cancellation and trip interruption coverage, medical coverage, medical air evacuation and other benefits such as lost or delayed luggage, travel delay due to bad weather and coverage for missed connections.

When travelers are suddenly forced to cancel expensive trips due to illness, injury or a death in the family and they do not have this insurance, they lose 100% of their money the closer they get to their departure date.

The price is based on your age, the state in which you reside and most importantly the cost of your trip including land, air and lift tickets. With group travel, the package price can be reduced.
